

RFQ for ENGINEERING SERVICES CITY OF STEVENSON

The City of Stevenson is requesting qualified engineers to submit statements of qualifications to provide the following:

Phase 1 Address the WSDOE's concerns about high **influent** levels including an analysis of the current plant and possible introduction of any process modifications (reduction of industrial or commercial flows and options to address non-compliant influent loadings) that would maintain the ability of the existing facility to continue to meet effluent limits and address high influent levels ; **Phase 2** Dependent on the results from Phase 1 and funding the City may continue forward with an amendment to the City's Sewer plan with preliminary design proposals for the modification or expansion of facilities necessary to accommodate increased flow and waste load. **Phase 3** And again dependent on funding and Phase 2 results the City may proceed with design and bid ready documents through final construction of a plant expansion.

Interested parties must request an application package from the City @ 509 427-5970. All application packages are due by 4:00 PM on Wednesday, September 23, 2009 at Stevenson City Hall, 7121 E. Loop Road, Stevenson, WA 98648 (or PO Box 371). Questions should be addressed to Eric Hansen, Public Works Director.

Interested firms should provide a statement of qualifications describing the firm's ability to provide a General Sewer Plan. The City will be considering qualifications of key personnel, relevant experience, and previous performance on similar projects. The City is seeking federal and state funding.

The City of Stevenson is an equal opportunity and affirmative action employer. Minority and women owned firms are encouraged to submit. The City reserves the right to reject any and all submittals and to waive formalities and irregularities in the solicitation process.
